## ITINERARY

### DAY 1: Arrive in Reykjavik

Having made your way to Reykjavik, you will be met by a local representative and transferred to our group hotel. Upon arrival at your included hotel, please visit the hospitality desk to collect your luggage cabin tags and to speak with our ground operations team, who may have information to share with you about pre-embarkation or to provide you with information about where to dine, withdraw cash or purchase last minute items from a local pharmacy or supermarket. The remainder of your time is at leisure. All meals today are at your own expense. Accommodation: Fosshotel Reykjavik (or similar)

### DAY 2: Embarkation

Breakfast and check-out. Join our guided Golden Circle and Geothermal Energy tour. With 85% of its electricity sourced from renewable sources, Iceland sets an outstanding example when it comes to sustainable energy. Our journey takes us to the famous seismic sights of the Golden Circle route - Gullfoss waterfall, geysir, and history-rich Thingvellir National Park, before we experience first-hand how green, sustainable energy is produced at one of the largest single-site geothermal power plants on the planet at the Geothermal Energy Exhibition and Ljósafossvirkjun Power Station. We'll also spend time at a true eco-village. Powered with thermal and solar energy, Sólheimar is fully sustainable, boasting greenhouses and forestry programmes, while its sustainable workshops are dedicated to candle-making, carpentry, weaving and soap-making. Late afternoon we return to Reykjavik for embarkation. This evening, get to know your fellow expeditioners, expedition team and crew.

### DAY 3: Denmark Strait

In the Denmark Strait, we cruise towards Greenland. We will be on the lookout for whale blows and the many seabirds that trail our ship, riding in the constant winds. In our lecture theatre, enjoy informative and entertaining presentations from our experts on topics such as seabirds, wildlife and ice, or catch up on some rest after busy days of travel.

## THE ARCTIC - JEWELS OF THE ARCTIC FROM REYKJAVIK | GREG MORTIMER

### DAY 4: East Greenland - Days 4 to 10

In the coming days, a host of choices are available to us, and depending on ice and weather conditions, the east coast of Greenland is ours to explore. Our experienced Expedition Team, who have made countless journeys to this area, will use their expertise to tailor our itinerary on a day-to-day basis. This allows us to make best use of the prevailing weather, ice conditions and encounters with wildlife. We generally attempt up to two landings or Zodiac excursions per day, including cruising along spectacular ice cliffs, following whales feeding near the surface. Be prepared to experience ice - and lots of it! East Greenland contains some of the Arctic's most impressive scenery. Deep fjords and narrow channels, flanked by sharp ice-clad peaks soaring up to 2,000 metres (6,562 feet), and glaciers birthing gigantic icebergs that drift throughout the fjord system, combine to create breathtaking scenes. The tundra landscape is home to musk oxen, arctic hare and reindeer. Throughout the area there are ancient Thule archaeological sites, historical trappers' huts, and the cabins of present-day Inuit hunters. A highlight is a visit to the Inuit village of Ittoqqortoormiit, the most isolated and northernmost permanent settlement in the region, with approximately 450 inhabitants. The community has an excellent museum, gift shop, an abundance of Greenlandic sled dogs and provides the opportunity to meet the friendly locals. Explore Scoresbysund, the world's largest fjord and a favourite hunting ground of the local Inuit. Massive glaciers flow into this fjord, the birthplace of hundreds of majestic Greenland icebergs. It is a spectacular place that simply needs to be seen to be believed. North of Scoresbysund lie Kong Oskar and Kaiser Franz Josef fjords, two of the most significant fjord systems in Greenland, each one encompassing several smaller fjords and sounds. Thanks to the fertile volcanic soil and the surrounding mountains offering protection from strong winds, the area is rich in wildlife. You may spot everything from musk ox and arctic foxes to mountain hares, and even reindeer, near the fjord. Look skyward and you could catch a glimpse of birds, including the glaucous gull, black-legged kittiwake, northern fulmar, common raven and common eider. We will attempt to enter Kaiser Franz Josef Fjord, a remote and rarely visited fjord system with countless opportunities for exploration, located within the Northeast Greenland National Park. Cruising through Kong Oskar Fjord, we marvel at the geological beauty of the mountains. We will then head south along the coast of Liverpool Land, with our passage dependent on ice conditions. We stretch our legs on hikes across tundra in search of ancient graveyards and summer villages occupied 3,000 years ago by Inuit. We may see musk ox, arctic hare and reindeer grazing. The maze of calm, interconnecting waterways in this area provides excellent opportunities for sea kayaking. We will see ring seals, perhaps catch a glimpse of the elusive narwhal, and maybe even a polar bear hunting on pack ice.

## THE ARCTIC - JEWELS OF THE ARCTIC FROM REYKJAVIK | GREG MORTIMER

### DAY 11: Greenland Sea - Days 11 & 12

As we sail towards the coast of East Greenland, we may encounter whales feeding in the rich waters of the north. As we approach East Greenland, be prepared to encounter more pack ice and perhaps spot seals and a variety of seabirds, including the northern fulmar and Brünnich's guillemot. The strong, icy currents have isolated East Greenland from the Polar Basin, attracting large numbers of fish, seals and whales. Climatic conditions and the concentration of ice in the vicinity often create thick morning fog that only vanishes in presence of the midday sun. Our experts will inform and entertain us with fascinating discussions on plants, animals, ice and heroic tales of exploration.

### DAY 13: Svalbard - Days 13 & 14

Svalbard offers arctic wilderness at its best. The members of our experienced Expedition Team, who have made countless journeys to this area, will use their expertise to tailor our itinerary, choosing the best options based on the prevailing weather, sea-ice conditions and opportunities for wildlife encounters. Phenomenal fjords, magnificent mountain ranges, and a polar desert rich in fossils set the stage for heroic tales of early exploration. See walrus hauled-out on sea ice or on beaches. On land, we stretch our legs on walks across tundra carpeted in brightly coloured wildflowers. We visit towering cliffs noisy with nesting guillemots and puffins, and scree slopes that hold Svalbard's largest little auk colonies. Most memorable are encounters with the majestic polar bear on pack ice. Your Expedition Team is just as keen as you are to find them and they will be on constant watch to spot these inspiring creatures. If you have chosen an optional activity such as kayaking, you will have an opportunity to enjoy that activity when conditions allow. For those who are enthusiastic to participate in a polar plunge, as soon as conditions are suitable, you will hear the announcement to prepare for an exhilarating dip - a memory you will savour for years to come.

### DAY 15: Disembark Longyearbyen

During the early morning we cruise back into Longyearbyen. Farewell your Expedition Team upon disembarkation before transferring to the airport for our charter flight to Oslo. Please note: We do not recommend booking flights departing prior to 12.00 pm on the day of disembarkation, as we may experience delays at the conclusion of the voyage. Cruise itinerary is subject to change depending on weather conditions, ice conditions and other factors.
