ANTARCTICA - ANTARCTIC EXPRESS: CROSSING THE CIRCLE | OCEAN EXPLORER

DAY 2: Embarkation Day

Your charter flight from Punta Arenas to Antarctica will have you crossing the legendary Drake Passage in only a few hours. Far below, the ship is approaching King George Island ready for your arrival. Your first glimpse of dramatic Antarctica landscapes will be from a very unique perspective, as your plane descends towards the South Shetlands. After landing, stretch your legs and spend some time exploring the island before being transferred by Zodiac to your ship. Meet the rest of your shipmates and set sail for the Antarctic Peninsula!

DAY 3: Antarctic Peninsula & South Shetland - Day 3 to 5

There are few places in the world as evocative as Antarctica. As your ship approaches the White Continent, you may be overcome by feelings of excitement and awe. Much of Antarctica is indescribable and can only be fully appreciated through your own eyes. Your first sightings will be from the ship itself. As the Captain and Expedition Team keep their eyes open for whales and seabirds, you'll be alerted to any new sightings. Our team of expert lecturers will also provide in-depth explanations of the geology, history and wildlife of the region. Even more exciting are your daily excursions to land. Your first Zodiac landing is something you'll never forget! Walking up to a beach that is dotted with penguins and seals is the most intimate way to experience the unique wildlife of Antarctica. Each landing is different and is dependent on weather, but every day presents new sightings and photo opportunities and it won't be long before you can tell the difference between an Adélie, gentoo or chinstrap penguin. You may take a Zodiac cruise in search of whales and icebergs in Pleneau Island one day, followed by a hike to a penguin rookery the next day. From the booming shot of a calving glacier at Petermann Island to the complete silence of night while camping on the ice in Antarctica, you'll welcome each day with the excitement and energy of a young child. Our Expedition Team will be with you all along, providing insights into the places you visit.

ANTARCTICA - ANTARCTIC EXPRESS: CROSSING THE CIRCLE | OCEAN EXPLORER

DAY 6: The Antarctic Circle - Days 6 & 7

Crossing the Antarctic Circle is an impressive achievement, as most expeditions to the Peninsula do not reach 66° 33' S. You and your shipmates will celebrate in style with a well-earned glass of wine! With a toast to the first explorers who ventured this far south, you can take pride in knowing that you've made it to a part of the world still visited by very few people. This is raw Antarctica, home to the midnight sun, Weddell seals and some of the most magical, unusual ice formations seen anywhere in Antarctica.

DAY 8: Northbound Along the Peninsula - Days 8 & 9

If you haven't had your fill of Antarctic wildlife and icebergs by now, you'll surely be satisfied by the time we return to the Drake Passage. You will continue to journey onto land by Zodiac as you travel north along the western Antarctic Peninsula. Your Expedition Team will always be on the lookout for any species of penguins, seals and whales that may have eluded you on the journey south.

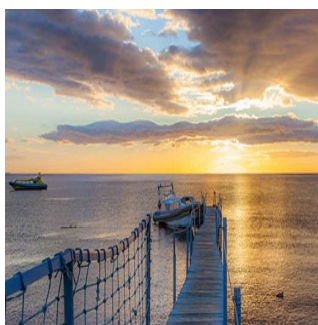

DAY 10: Disembarkation and Fly to Punta Arenas

After your week of exploration, you'll say goodbye to the Expedition Team and disembark at King George Island. Your three-hour flight across the Drake Passage to Punta Arenas, Chile, brings your adventure to an end. After the group transfer to your hotel, enjoy an evening on your own, in the city or at the hotel.

DAY 11: Depart Punta Arenas

After breakfast, you are welcome to continue on your own travels or make your way to the Punta Arenas airport for your homeward flights.
